

REQUIREMENTS FOR HEALTH INSURANCE

HEALTH INSURANCE COVERAGE

Medical Students are required by Policy to maintain comprehensive health insurance coverage. The School of Medicine recommends the UPMC Graduate Health Plan which you can read more about on <http://gradcare.hr.pitt.edu>.

Since medical health insurance is required the School of Medicine includes that fee/annual premium on your Fall tuition bill. If you believe you already have comprehensive coverage and do not want to enroll in the UPMC Graduate Health Plan you will have the opportunity to waive the coverage. If you choose to participate in the UPMC Graduate Health Plan instructions will be provided to you prior to the start of the Academic Year.
